

January 12, 2005

Dear UNAVCO Member Representative,

This is a reminder of the approaching semi annual opportunity for members to pool orders for our best volume discounts on Trimble and Topcon equipment. This includes Trimble NetRS, Trimble R7 and Topcon GB-1000 GNSS receivers. Pricing will depend on the aggregate quantities of each model ordered by the February 28 deadline. You may contact the manufacturer representatives listed below for information, pricing and to place orders.

For Trimble:
Dave Newcomer
dave_newcomer@trimble.com
Tel. 724-272-1577

For Topcon:
Steve Briggs
sbriggs@topcon.com
Tel. 561-998-8010

Associate members may order equipment through this program, however, associate members from outside of the US may be referred to a local dealer or distributor for support and repair service. For this reason, depending on the manufacturer and your location, pricing may differ from equipment shipped to members within the US. Please contact the manufacturer's representatives for information on pricing and support for orders being shipped outside the US.

More information on UNAVCO member equipment purchases can be found on the UNAVCO web site. See:
http://facility.unavco.org/project_support/campaign/equipment/purchase/purchase.html.

Please contact support@unavco.org with any related questions.

Steve Fisher
